## SCIENTIFIC PROGRAMME

**SPECIAL GUEST: PETER VALENTIN TOMAZIC** – Medical University of Graz, Graz

### DAY 1

07:00 - Registration of participants  
 07:15 - Surgical cases presentation  
 07:30 - Surgical anatomy of the sinonasal district  
 08:30 - Live surgery & debate  
 12:30 - Imaging: Radiological anatomy of the paranasal sinuses  
 13:00 - LUNCH  
 14:00 - **Video-guided step-by-step dissection**  
 - Identification of main surgical landmarks  
 - Sphenopalatine artery identification  
 - Anterior sinus compartment: uncinectomy, middle antrostomy, anterior ethmoidectomy, Draf type I  
 19:00 - Closing remarks

### DAY 2

07:15 - Surgical cases presentation  
 07:30 - Treatment of sinonasal tumors  
 08:30 - Live surgery & debate  
 12:30 - Imaging: differential diagnosis of sinonasal tumors  
 13:00 - LUNCH  
 14:00 - **Video-guided step-by-step dissection**  
 - Posterior sinus compartment: posterior ethmoidectomy, sphenoidotomy  
 - DCR  
 - Draf type II, III  
 19:00 - Closing remarks

### DAY 3

07:15 - Surgical cases presentation  
 08:15 - Management of sinonasal complications  
 08:30 - Live surgery & debate  
 12:30 - Imaging: CSF-Leaks diagnostics  
 13:00 - LUNCH  
 14:00 - **Video-guided step-by-step dissection**  
 - Medial maxillectomy  
 - Access to the pterygopalatine fossa  
 - Optic nerve decompression  
 - Orbital decompression  
 19:00 - Take home message & closing remarks

The basic three-days lasting workshop is grounded on sessions of live surgery, lectures and practical cadaveric dissection. After the presentation of the daily clinical cases, participants will attend live surgery projections and will debate the surgical procedures directly with the surgeons. Lectures will relate to sinonasal surgical anatomy (macroscopic, endoscopic and radiologic), and specific surgical techniques. Afternoon sessions of step-by-step tutor-guided anatomical dissection will complete the programme. This course is addressed to ENT specialists or residents who desire to deepen their knowledge on treatment of sinonasal inflammatory pathology, benign tumors and management of possible complications.

Participants that attend the three-day course and pass a final examination, will receive the Post Graduate University Diploma in **Endoscopic Nose & Paranasal Sinus Surgery**, of the University of Insubria in Varese.

### *Instructional Material*

The instructional material in digital format will be delivered at registration, during the first session
